morning the Angelo Parodi drifted alone, starvation master on the bridge. Then at 3 o'clock on Tuesday morning a lookout reported lights on the starboard bow.

Instantly the captain burned Coston lights from the bridge, and a prayer went up when the red and green eyes in the distant dark told that the strange ship had seen and was coming to aid. When daylight came the stranger was found to be the Crios. Capt. Goulandris.

The seas had lessened during the night and by skilful manouvering the Greek skipper managed to get a line aboard. Over this tow line a jury

oreches buoy was rigged and a little ood—not much, for the clumsy nake-shift would not stand the strain—was sent over to the Italian vessel in a basket. From time to time during the towing in a sparse supply of food was sent across the towing line, but when anchor was dropped at Quarantine to-day the first thing the officers and crew of the Angelo Parodi did was to tumble into boats and row over to the Greek ship for a square meal.

The Italian vessel was taken to the Morse drydock in Erie Basin.

GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat less meat if you feel Ba kachy or have Bladder trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys o.casionally. You must relieve them like you relieve your bowels; semoving all the acids, waste and poison, size you, feel a dull misery in the kidney region, sharp pains in the back or sick headache, discussed the state of siness, your stomach sours, tongue is conted and when the weather is bad you coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralise these irritating acids an' flush off the body's urinous waste get about four ounces of Jad Salts from any pnarmacy; take a table-spoonful in a glass of water before break-fast for a few 'ays and your kidneys will then set fine and bladder disorders disappear. This famous saits is made from the seid of grapes and lemon jukes, combined with lithia, and has been used for generations to clean and stimulate stuggish kidneys and stop bradder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent, lithiawater drink which millions of men and women take now and then, thus avoiding scrious kidney and bladder diseases.—
